

SFS

Estetic 3DN

A modern interior space featuring large floor-to-ceiling windows that offer a view of a lush green forest. A large, intricate, 3D paper lamp hangs from the ceiling, casting a warm glow. The room is furnished with a white cabinet on the left, a small potted plant on a metal stand, and a coffee table with a book and a small plant. The overall aesthetic is clean and minimalist.

Estetic 3DN

sturdy, compact and appealing

The perfect combination for doors and windows in PVC.

Estetic 3DN is a hinge combining the stability of the Eurogroove fixing system with the speed and ease of mounting of the door part. This hinge, in addition to adapting to almost all PVC profiles currently on the market, can also be mounted on aluminium and wood.

Available in two versions: one for Eurogroove position 13 mm and the other for 9mm, Estetic 3DN is also reversible and therefore applicable to both right and left handed doors.

Estetic 3DN is a two-piece hinge with three-dimensional adjustments using a 4 mm Allen key: height +5/-1 mm, horizontally +/-3 mm and depth +/-2 mm.

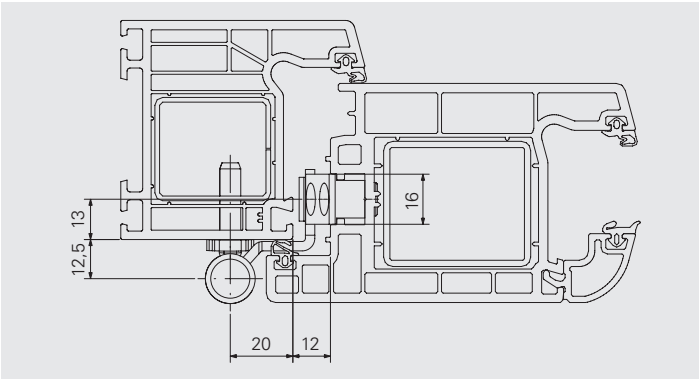

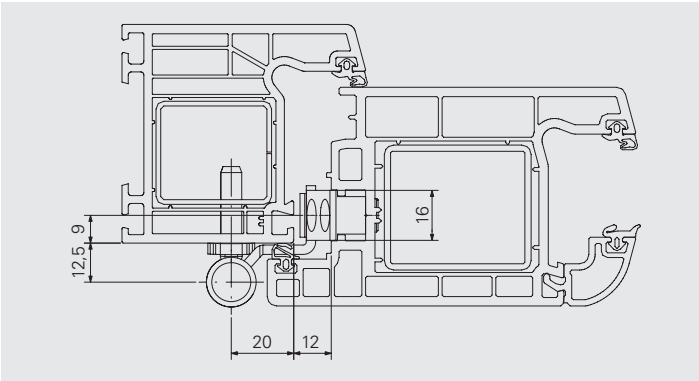

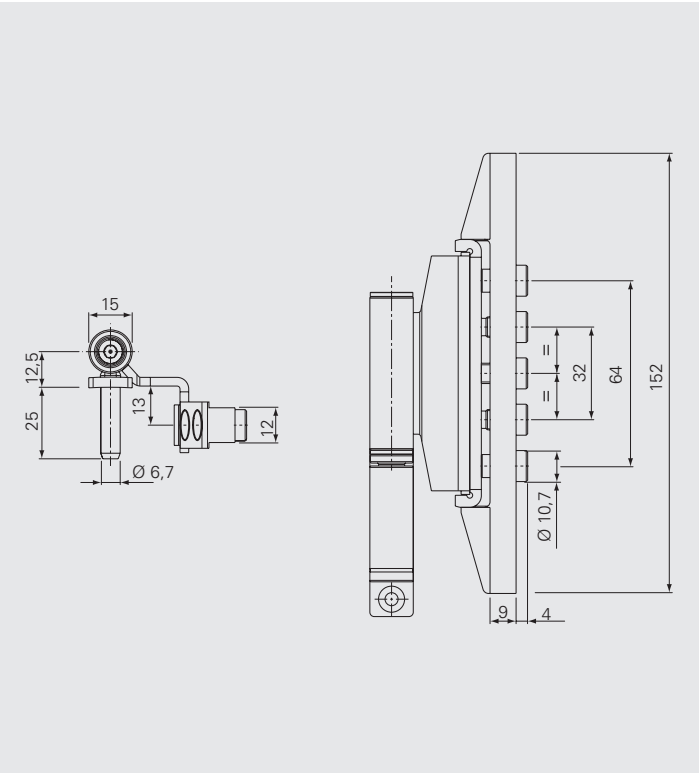

The availability of covers in a broad range of colours make it extremely versatile also in terms of its aesthetic appeal.

Estetic 3DN is guaranteed by SFS quality and durability, having passed an extremely rigid testing procedure involving more than 200,000 movements on an 80 kg door.

CE certified hinge
